YOUNG & HEALTHY

Board POLICY

Title: Give & Get Board Practices

Date of Approval: 12/04/2019

Give & Get Board Policy

Young & Healthy is invested in creating and maintaining a diverse board. That diversity includes economic diversity.

In order to encourage economic diversity on the Young & Healthy Board of Directors, there is no minimum financial contribution expected from its members.

The expectations for board contributions are as follows:

- We expect that 100% of board members will both “give” and “get” each fiscal year.
- Each year the board will determine the aggregate “give “and “get” amounts to be contributed to the overall revenue budget for the following fiscal year.
- The Executive Director and the Development Director will track all “give and “get” board gifts and will communicate the aggregate number to the full board. Individual successes will be communicated privately to each board member.
- Board members will consider their own contributions in an amount that would be meaningful, even sacrificial, in light of their own financial circumstances.
